

Welcome to the Farm Hill School Family Resource Center

Each child deserves to succeed. Establishing a solid bond between the school and parents through the development of a family resource center produces a family/school partnership which can foster a child's academic success. A family resource center strengthens the child by focusing on families and their needs and encouraging parent involvement in the schools. It helps support families by providing a comfortable environment within the school setting where family members can grow with each other and interact positively with the school.
