The Family Resource Center at Vogel-Wetmore School reaches out to all families. The FRC provides families with young children opportunities to enhance their children's school readiness. In addition, our positive youth development programming helps school-age children bolster their self-esteem and foster academic achievement.

The FRC is here to help the school system and the community prepare young children for school, encourage parents/guardians to be involved in their child's education, support families in need, and stimulate academic achievement among our students!

Kids are Cool!
