

Below you will find surveys to administer to Staff, Students and Teachers to evaluate the climate of your school. We recommend that you edit this survey to fit your needs before using them, and you can freely use and distribute these surveys at no charge as long as you cite Safe Havens International as the source. In addition, Safe Havens International has no liability in the administration of the survey in any form or the application of the results.

## Section 13. Survey and Feedback Forms

The following surveys should be used:

- Before plan development, as a benchmark of safety and an indicator of possible problems to be addressed.
- Once the plan is initially deployed to measure any change in perceptions of safety the plan may cause.
- Yearly, to monitor the progress of the plan in improving the perception of safety and to identify any additional problem areas.
