**DESCRIPTION**

The Clinton Public Schools has a resource program for students in Kindergarten through grade 8 with intellectual gifts and talents. A district coordinator works with three resource teachers at the K-grade 3, grades 4-5 and grades 6-8 levels to provide teacher training, enrichment activities and accelerated curricula for identified students. In addition, two part-time teachers conduct after-school enrichment activities for identified students in grades 4-8. Students systemwide are active participants in the Odyssey of the Mind state competitions.
