DESCRIPTION	Numerous after school and Saturday programs are offered for students identified as gifted or talented or especially adept in a certain area. Students must be recommended by their teachers and guidance counselors for inclusion. Meriden also provides tuition slots for students in programs such as Talcott Mountain, Youth in Government, Connecticut Scholars, CREC/ACES Center for Performing Arts, Center for Creative Youth, etc. Currently, Meriden does not provide a separate gifted/talented program during the school days, but does provide funding for building-based, school-wide enrichment initiatives.
