

## REFLECTIVE PROTOCOL

**Task/Activity**

**Grade**

**Date**

1. Give your impressions of the difficulty of the task, both technique and problem solving.
2. How did the students respond to the task?
3. How does the activity compare to what is currently available to your students through the math program?
4. Is there any professional development that would have helped you with implementing the activity?
5. Is there anything that needs improvement in any aspect of the activity/task?
