

**Focused Monitoring Data Showcase  
November 10, 2010**

I expected...

I received...

I still need...

I valued ...

1. Did you have to change what you thought your root cause was once you got started? Why?
2. What new questions do you have of your data now that you've seen what others have done?
3. Based on all the data walls you reviewed today, what were some trends that you saw?
4. What is one thing the district will change in light of what was shared today?
