

Focused Monitoring
Data Wall Feedback Form
November 10, 2010

District you are visiting: _____

Left panel discussion:

1. Is the data understandable? What can be improved to help understand the data?
2. Are the strengths and needs accurate according to the data? What might you suggest for a strength and/or need?
3. Does the need explain *adult* actions or beliefs, or systems, that are possible root causes of students' difficulties? Can you suggest some?

Middle panel discussion:

4. Do the strategies align with school/district improvement plans, curriculum and GLEs, or school climate goals? Can you suggest some strategies that might help?
5. Will/do the strategies have high impact, in your opinion? How could they have high impact?
6. Can you tell how the strategies are being monitored? How will the district know they are working? Can you make suggestions?
7. Can you tell if this information has/is being shared outside of the school community, with families?

Right panel discussion (if applicable):

8. Are there multiple measures of student performance after the strategies were implemented? Can you provide suggestions on how this might be done or improved?
9. Are there inferences about adult actions or beliefs, or systems that are possible root causes of students' difficulties now that some strategies have been implemented? Can you suggest any?
10. Is there evidence of what improvements might be made to tier 1 (core) curriculum and instruction, now that some strategies have been implemented? Can you make suggestions?
11. Are there next steps, limitations, or any questions posed for the district to further explore/implement? Can you make suggestions?

Final:

Please provide any other comments or suggestions that might assist the district in continuing their work.
