

iPad Mobile Secure browser 2.2

Smarter Balanced and the American Institutes for Research (AIR) have released an *optional* update to the iPad Mobile Secure Browser (version 2.2) that improves the testing experience for students and prevents students from accessing some resources that should not be available for use during the test. This update is strongly recommended but is not required for the Field Test. The updated iPad Mobile Secure Browser can be downloaded from the Apple Store at: <https://itunes.apple.com/us/app/air-secure-mobile-browser/id607002517?mt=8>.

Please be aware that Apple has released iOS 7.1. Smarter Balanced strongly encourages districts to update iPads to iOS 7.1 before testing to improve the security of the iPad and to improve students' testing experience.

The Field Test Help Desk ([1-855-833-1969](tel:1-855-833-1969)) is available to answer any questions you may have about installing either iOS 7.1 or the iPad Mobile Secure Browser 2.2.

NEW! - Session ID and Test Selection Instructions for Test Administrators

AIR made available today the [Session ID and Test Selection Instructions for Test Administrators](#). This document is designed to help Test Administrators navigate the Test Administrator Interface, create session IDs, and select non-performance task (non-PT) forms and performance tasks (PT) for the Smarter Balanced Field Test assessment. Please share this resource with all Test Administrators.

Contact the **Academic Office** at 860-713-6860 or SmarterBalancedCT@ct.gov with questions regarding the Smarter Balanced Assessment System. View past [Smarter Balanced Field Test Updates](#) on the CSDE Web site.
